

S11- SECOND HAND MACHINE LINE ON SALE

SANITARY NAPKINS,PANTY SHIELDS, INCONTINENCE PRODUCTION LINE FOR SALE

Machine: Machine for production of sanitary napkins,panty shields
and incontinenceproducts type **DEDE 400/1702 + V2 Cartoning**
machine type V106 S

Model:	BIKOMA DEDE 400
Production year:	2007
Production:	fluff core/ cross direction of product
Product:	155x67 mm
Production speed:	850 pcs/min
Required air pressure:	6-8 bars
Required quantity of air:	1000 l/min
Web direction:	from right to left

Electrical data BIKOMA:

Connexion voltage (V/Ph/Hz): 3x400 / AC N PE / 50

Max. power consumption: 50 kVA

Max. power connexion: 125 A

Cartoning machine:Type V 106 S, automatic,

horizontalCapacity: up to 70 cpm

Format: 20,30,40,45,50 and 60 pcs/carton

Machine specification:

1. Double Cellulose Unrolling Device
2. Defibrating Unit (Hammer mill)
3. Drum Former
4. Central Processing Drum
5. Calendering Unit
6. Crimping System
7. Flower Embossing Unit
8. Application System For Silicone Paper Central
9. Back sheet Unrolling Device With Automatic Splicer and Festoon
10. Top sheet Unrolling Device With Automatic Splicer and Festoon
11. Contour Cutting Station
12. Taking-Over Unit
13. Automatic Stacking Unit
14. Bag Filling Table
15. Glue Application
16. Automatic Filter Device
17. V2 Cartoning Machine type V106 S
