

3520mm Light weight gsm Paper Machine

- Design speed: 800 m/min, Operating speed: 700 m/min, Basis weight: 20–60 g/m²
 - Hydraulic headbox, 14.5 m wire section with top former
 - Press section: 606 press (750/750/750) + main press (1000/550)
 - Dryer section with 28 dryer cylinders
 - One film size press
 - One four-roll soft calender, two scanners
 - One pope reel, one rewinder (2200 m/min)
 - Vacuum system, drive system, ABB frequency converters
 - Paper machine manufactured by Voith
 - Production capacity: 120 tons/day
-
- Complete paper machine (excluding pulping section)
 - Scope: from approach flow screening system to rewinder
 - Equipped with a Voith rewinder with design speed of 2000 m/min
