

## FLUTING PAPER MACHINE 2.300 MM FOR SALES

- Type of paper: fluting, medium, wellenstoff
- Speed 170 – 360 m/min
- Capacity 5 Tph (120Tpd)
- Stem consumption 6 / 7 Tph at 3,5 bars
- Basis weight 90 – 200 gr/m2
- Machine recently stopped

Composed by:

- V Screen AFT MAX FLOW 700 year installed 2017
- ST head box pressurized slice width 2.431 mm, flow 16.500 l/min, year 2016
- Complete fourdrinier Stainless Steel AISI 304 cantilever, ceramic dewatering elements, length 23.400 mm and width 2.570 mm
- 1<sup>st</sup> press face width 2.560 mm and diameter of both 650 mm drilled and plain press 120 kg/cm<sup>2</sup>
- 2<sup>nd</sup> press face width 2.560 mm and diameter 640 mm for both blend drilled, frames on stainless steel AISI304
- Dryer section composed by 16 dryers face width 2.400 mm and diameter 1.500 mm press 3,5 bars and 5 dryers on steel made face 2.500 mm and diameter 1.500 mm press work .... Complete frames and close hood
- Pope reel face width 2.300 mm and diameter 1.200 mm
- Rewinder maximum width 2.240 mm and diameter 1.340 mm speed 1.200 m/min
- Complete drive AC and control panes
- Spare parts
