

FLUTING PAPER MACHINE 2.500 MM FOR SALES

- Type of paper: fluting, medium, wellenstoff
- Speed 240 – 420 m/min
- Capacity 6,5 Tph (120 – 140 Tpd)
- Stem consumption 7 / 8 Tph at 3,5 bars
- Basis weight 90 – 200 gr/m²
- Machine recently stopped

Composed by:

- V Screen Toschi
- ST head box pressurized slice width 2.650 mm, flow 16.000 l/min, year 1996
- Complete fourdrinier Stainless Steel AISI 304 cantilever, ceramic dewatering elements, length 23.600 mm and width 2.770 mm
- 1st press face width 2.765 mm and diameter of both 620 mm drilled and plain
- 2nd press face width 2.800 mm and diameter 850 mm for both blend drilled, frames on stainless steel AISI304
- Dryer section composed by: 6 dryers face width 2.550 mm and diameter 1.500 mm press 3,5 bars and 18 dryers on steel made face 2.650 mm and diameter 1.500 mm press work Complete frames and close hood
- Pope reel face width 2.700 mm and diameter 1.200 mm
- Rewinder maximum width 2.470 mm and diameter 1.340 mm speed 1.200 m/min
- Complete drive and control panes
- Spare parts
