

COMPLETE 2 WIRES PAPER MILL FOR SALES

Technical information

- Width after rewinder 2.600 mm
- Fluting, liner from 100 – 350 gr/m²
- Speed 650 m/min
- Capacity maximum 250 Tpd
- Built in 1978 and overhauling 1998 – 2017 – 2022
- **Spare rolls for each position, also motors, baskets, ...**

1. 2 Complete stock preparation

- 2 Complete stock preparation lines for 100 % recycling paper built by Andritz, AFT and Maule year last rebuilding 2017, line of 290 Tpd and line 390 Tpd
- Complete water treatment

2. Paper machine:

- Inferior hydraulic head box year 2024 with profile control
- Inferior fourdrinier length 25.000 mm length with foils, vacuumfoils, ...
- Superior hydraulic head box year 2024
- Superior fourdrinier length 8.000 mm with
- Couch roll diameter 845 mm
- Pick up roll diameter
- BINIP press section
- Complete Jumbo press diameter 1.200 mm (dryer after Jumbo 49 %)
- 1ST dryer section type with 14 can press work 3,5 bars
- 2nd dryer section with 16 dryers Valmet press 8,5 bars
- Film press diameter 815 mm built by Valmet
- Last dryer section composed by: 1 chromed dryer and 9 dryers Valmet press 8,5 bars
- Complete close hood Langben
- Pope reel automatic with diameter 2.750 mm
- Complete DC drive new in 2023 and control cabinets
- Broke pulpers and hydraulic groups
- Complete rewinder for diameter 1.600 mm with AC drive and 1.500 m/min
- Complete water treatment
